NEW UNIVERSITY BUILDINGS TO COST \$160,000

Contracts for Two Handsome New Structures Have Been Awarded to Atlanta Contractor.

The contracts have been awarded for two additional buildings at the University of Florida, which, when finished, will cost in the neighborhood of \$80,000 each, and work is to commence on them immediately.

This is the gratifying information received from the meeting of the State Board of Control which was held in Jacksonville, and which was attended by Dr. Murphree for the past two days. He was successful in receiving other valuable considerations from the body.

Besides the order requiring work to be started on the two new buildings, a library was ordered consisting of over 3,000 volumes, giving the University the largest and best working law library in the State outside of the Supreme Court.

The Science building will be 250x62 feet, containing two stories and basement, and independent of the heating plant will cost \$68,000. The other building will be the Experimental Station, which will contain three stories besides the basement. This building is to be 128x62 feet.

The successful bidder for the work

was Contractor Cain of Atlanta, and he will commence at once to get his arrangements made for commencement of the work.

Dr. Murphree stated that the prospects for attendance were indeed very flattering and that he feared they would be unable to accommodate the students in Buckman Hall. Already there have been reservations made for fifty-two rooms. Doctor Murphree was of the opinion that they would not commence coming in for reservations until the latter part of the month, but states that prospective students are certainly plentiful.

President Murphree is a most pleasant gentleman, hence it can easily be seen why he is meeting with such remarkable success with the school, and as soon as he receives the facilities the University of Florida will be numbered among the leading institutions of the South. Its faculty has always been of the highest, the present year being no exception, and all Gainesville should boost and lend every effort to President Murphree for the further advancement of this institution, which is starting out under most favorable conditions.

Inspecting Engineer's Report on Condition of A. C. L.

Inspecting Engineer Frank P. Damon has submitted the following report to the Florida Railroad Commission upon the condition of the road-bed of the Atlantic Coast Line from Croom to Jacksonville, via Ocala and Gainesville:

"From Croom to Leesburg, road-bed is good with the exception of some places between St. Catherine and Okahumpka, where the banks are a little soft on account of the high water; the track averages in very good surface and alignment except for a short distance from Croom, where the surface and line are not good, owing to the bent condition of the rail; a good many ties are distributed on the road-bed for renewals. This work has been delayed on account of the heavy rains. Leesburg to Ocala the road-bed is good and track is maintained in good condition, tie renewals are kept up, and track shows to a good surface for 50-pound rail.

"Ocala to Gainesville, improvements

to the track are being made by replacing the 50-pound rail with 70-pound relaying rail, and as I understand this improvement will be continued South of Ocala until all 50-pound rail has been taken out.

"Road-bed is good and track is maintained in good condition. I noted some rough track on the first curve south of Rochelle and at several places between Rochelle and Gainesville.

"Gainesville to Burnett's Lake the track shows in very good condition, except for several miles south of Hague, where it is not to a good surface. Ties are distributed along the road-bed for the greater part of this distance and surfacing will be improved when renewals are completed.

"Burnett's Lake to Jacksonville the track is laid with 85-pound rail and is maintained in good condition. The improvement being made to road in reducing grades near Worthington are very near completed."

Negro Entered Lady's Room in Dead Hours of the Night

GAINESVILLE, Ga., Aug. 7.—Edwin Matthews, colored, night porter at a local hotel, early yesterday morning had his throat cut by Mrs. Mamie Lawson for entering her room through a window.

Mrs. Lawson arrived Thursday night from Jefferson, Ga., and was assigned to her room, Matthews being directed by the night clerk to perform this duty.

Later Matthews knocked on the door and asked to enter to see about a key, which he did.

Mrs. Lawson became uneasy after the negro left and fastened her door

securely, the negro, having acted queerly.

Between 1 and 2 o'clock in the morning she was awakened by someone sitting on the side of her bed. She instantly grabbed a knife which she had placed under her pillow and cut the negro's throat, inflicting a serious wound.

Matthews was then carried to the county jail, where he was kept until 3 o'clock in the afternoon, when Sheriff Crow carried him to Atlanta for safe-keeping, intense feeling having been engendered by the negro's action.

Alabama's New Prohi. Bill Up to Governor Comer

MONTGOMERY, Ala., Aug. 7.—The Carmichael prohibition bill, far more drastic than the present statutory State-wide prohibition law, which passed the Senate yesterday afternoon by a vote of 28 to 2, and which now awaits only the signature of Alabama's prohibition executive before it becomes a law, has already scored a far-reaching effect so far as the operation of locker clubs and near-beer saloons are concerned. From all parts of the State come reports that with the news of the passage of the Carmichael bill near-beer saloons and clubs wherein liquors have been dispensed to members under the locker

system were dismantled and tonight the State is almost as dry as it will ever be.

In Montgomery, even social clubs of the highest class have been closed and early in the afternoon the near-beer men began to remove all drinkables from their places. With considerable caution, a few of the saloons are disposing of occasional bottles of the amber fluid of the "near" kind, but even those of the quenchless thirst are extremely cautious in attempting to secure drinkables.

Governor Comer will probably not sign the Carmichael bill until Monday afternoon. Both houses adjourned yesterday until Monday.

Horse Drowns Its Rider in Waters of Suwannee

LIVE OAK, Aug. 7.—Two men traveling by private conveyance from South Florida to their home in Arkansas, arrived at Suwannee Springs on Thursday, and in the afternoon went into the Suwannee river with their horses for a swim. A crowd on the banks saw the horse of one of the men throw him from the saddle, plunging him under the water. They watched for him to come up again, but he did not come up. Then a number of men began searching for him, and after an hour and a half

they found him and brought him to land, using every effort to bring him to, to no avail. His companion, after taking the drowned man's watch, diamond ring, diamond pin and \$53 in money, which had been left in his clothes in the bath house, left for Jasper, where he sent word to the family of the drowned man in Arkansas and to an undertaker, who came out to Suwannee Springs and prepared the body to be taken on to Arkansas. The names of the men are unknown here.

Take Notice.

All persons are recommended to take Foley's Kidney Remedy for backache, rheumatism, and kidney and bladder trouble. It will quickly correct urinary irregularities, which, if neglected, may develop into a serious illness. It will restore health and strength. Do not neglect signs of kidney or bladder trouble and risk Bright's disease or diabetes. J. W. McCollum & Co.

Water Again Turned On.

Water at all of the public drinking troughs of the city has again been turned on and the dumb animals can now be properly attended to. The action in cutting off the water was caused by the scare of glanders a few weeks since at Ocala, and it was thought best to cut off the service until the worry was over from traveling horses passing this way.

A Weakling

Is the only way to describe the poor child that is afflicted with worms. No matter how much or how often it eats, the worms get all the nourishment from the food—the child gets practically none. White's Cream Vermifuge gets rid of the worms quickly, easily and with no bad after effects. Price 25 cents a bottle. Sold by W. M. Johnson.

Hague "Making Hay."

W. C. Hague, our efficient deputy sheriff and all-around good fellow, believes in making hay while the sun shines. He tells the editor that he has gathered several tons and has several more cut and ready for gathering.—Alachua News, 6th.

Hicks' CAPUDINE Cures Sick Headache

Also Nervous Headache, Travelers' Headache and aches from Grip, Stomach Troubles or Female troubles. Try Capudine—it's liquid—effects immediately. Sold by druggists.

GARAGE IS BEING GREATLY ENLARGED

ROOM 60x50 FEET NOW BEING
ADDED TO MAIN BUILDING.

Cook Company Found Accommodations Too Cramped in Their
Already Large Quarters.

Business has increased to such an extent with the Cook Automobile Company that they have found it necessary to have their already large building enlarged and work has commenced on this building.

The new addition being built by Mr. Colclough, the proprietor of the building and grounds, will be 50x60 feet and is being added to the main building in the rear, making it reach a total length of about 120 feet.

It was thought when the building was first erected that it would easily meet all the requirements of this city for a number of years to come, but this company have already found it impossible to handle their great volume of business, even with the other places that are now running and in contemplation of erection.

Gainesville was slow to take the automobile fever, but it seems as if she is now thoroughly enthused, for about forty cars have made their appearance here within the past four months, and a number of others are now thinking of purchasing.

With several first-class and roomy garages, and plenty of good roads to run upon, it will be only a short while until we will have passed other progressive places along the line, and since the advent of so many autos it is almost certain that it will start the good roads movement in earnest in a short time.

Disagreeable at Home.

Lots of men and women who are agreeable with others, get "cranky" at home. It's not disposition—it's the liver. If you find in yourself that you feel cross around the house, little things worry you, just buy a bottle of Ballard's Herbine and put your liver in shape. You and everybody around you will feel better for it. Price 50 cents per bottle. Sold by W. M. Johnson.

Member National Shoot.

Private Larsen of the Gainesville Guards will take part in the National shoot, which takes place at Camp Perry, Ohio. He distinguished himself among the squad of the State with a score of 232, and this being among the best average, he was selected as one of the team that will visit the National grounds. The Guards feel proud that one of their number passed and will make extra efforts at the next meeting to try and land a goodly number of the material.

Two Million Bottles

of Perry Davis' Painkiller sold every year. Think of it! And every bottle is lessening suffering and helping some human being to health and happiness! This wonderful household remedy stops the pain of sprains, burns or bruises. It relieves rheumatism or neuralgia. It cures colds, cramps, colic, diarrhoea. There ought to be a bottle on your shelves just now, ready for the first sign of trouble. The new size bottle is 35 cents and there is also the 50-cent size. Be sure your druggist gives you Perry Davis'.

S.S.S. CURES BLOOD POISON

When the blood becomes infected with the virus of Contagious Blood Poison, the symptoms are soon manifested. The mouth and throat ulcerate, copper-colored spots appear, a red rash breaks out, the hair begins to come out, and usually sores and ulcers show themselves on different parts of the body. At the first sign of the disease S.S.S. should be taken, for the tendency is to work down and attack the bones and nerves, and sometimes it makes a complete physical wreck of the sufferer. The disease can make no such headway if S.S.S. is commenced and used according to directions; its progress can be stopped, the poison removed, and health preserved. S.S.S. goes into the blood and removes the insidious virus, cleanses the circulation and makes a complete and permanent cure by driving out the cause. S.S.S. quickly takes effect on the blood, and gradually the symptoms disappear, the health is improved, the skin cleared of all spots, sores and blemishes, and when S.S.S. has thoroughly purified the circulation no trace of the disease is left. S.S.S., a purely vegetable remedy, cures Contagious Blood Poison because it is the greatest of all blood purifiers, tested and proven for more than forty years. Home treatment book and any medical advice free to all who write.

DELIGHTFUL RECEPTION.

Pretty Honors Shown Mrs. Dr. Colson by Salem, Va., Lady.

The Salem correspondent of The Roanoke (Va.) Evening News writes as follows of a reception tendered in honor of a Gainesville lady:

"The home of Mrs. W. E. Brown, on East Main street, was the scene of a beautiful reception on Friday afternoon, from 4 to 7 o'clock, given in honor of Mrs. Colson of Gainesville, Fla., and Mrs. Armistead, of New Orleans. The former is now Mrs. Brown's guest, while the latter is the guest of Mrs. W. R. Cross. The interior of the home was elaborately decorated with evergreens and electric light, with pink shades and myriads of wax tapers.

"The list of invited guests numbered about one hundred and thirty. The guests were received at the door by little Misses Beverly Brown and Lucile Colson of Florida, who held silver trays for the cards. The hostess, attired in lavender silk, was assisted in receiving by Mrs. Colson, who was beautifully gowned in black messaline, with trimmings of dutchess lace. Mrs. Fisher Ament of Mississippi in light blue messaline; Mrs. Wilbur R. Cross, in a white lingerie costume, and Miss Bessie Brown, in light blue silk. Frappe was served in the hall by Misses Carrie and Annie Brown and Eugenia Griffin. In the dining-room the beautiful color scheme of pink was carried out in the ices, cakes and bon-bons. Presiding at either end of the table were Mrs. W. W. McClung and Miss Bessie Tompkins, who were assisted in serving by Misses Maude and Nancy Logan, Annie McConkey and Mrs. Roy Hardison, of Columbia, Tennessee."

MILLER MAKES SOME CHANGES IN POSITIONS

BATTING ORDER WILL RECEIVE
ATTENTION BEFORE MONDAY.

Says With Proper Coach Work and
Judgment, Oak Halls Are
Fast Set.

The big, strong Soldier team from Egmont Key will arrive in the city for a series of three games, Monday, Tuesday and Wednesday, and they will be most interesting ones.

The heavy ones that "do time" for Uncle Sam have already played a number of games with some of the fastest teams in South Florida, making good records, coming out victorious, and they will try to "cop out" at least a part of their games here. "Dusty" Miller, the new captain, has already made great changes in the line-up of the Oak Halls, has changed the positions, and will drill them in this manner for a while and see just what can be done, but at any rate, he says it will be an improvement over the old way of playing the team.

Each man will be given his position and that place he must work, or there will be others with "Dusty." He will make the team do "stunts" daily at the ball lot.

Let a crowd get together for the opening of the series on Monday and see the way in which the boys acquit themselves. The batting order will also be given a little changing, for with more of the best hitters to gether they stand a better chance to "edge in" every now and then.

The soldier game will be called promptly at 3:30, so be on hand and tell everyone else.

DISGRUNTLED PALATKA.

Claims That Game Here Thursday
Was Stolen by Umpire.

The following from The Palatka News of Friday, Aug. 6th, will probably be read with interest by the several hundred Gainesvillians who witnessed the Palatka-Oak Hall game Thursday afternoon:

"The Palatka club and a special train load of rooters and excursionists went over to Gainesville yesterday, to try conclusions with the Oak Halls of that city, and in a well-played game up to the 9th inning the score was 2 to 0 in favor of Palatka, when by rank decisions of the umpire the game was GIVEN to Gainesville by a score of 3 to 2.

"The Palatka team became disgusted and despite inducements and promises of a SQUARE DEAL, refused to remain over for the second game, which was to have been played to day."

The writer of the above was evidently misinformed. The score did not stand 2 to 0 "up to the ninth inning," as Palatka did not reach third base until the ninth. We refer the writer to the score sheet to bear us out in this statement.

Regarding the decisions of Umpire Hutchinson, there was no chance for "rankness" on his part. Manager Kalbfeld of the Palatka team expressed himself as entirely pleased with his decisions during the game.

As above stated, there were no scores made until the ninth inning, and in this block there was no opportunity given for a close decision.

In order to refresh the minds of our Gem City friends, we reproduce the result of the final inning, and would suggest that they mention a single play where any "closeness" was experienced:

The Last Inning.

Walker hit to Allen, who made a bad throw to first, Walker safe; Collins hit to Spottswood, who made a mighty effort to get it, but failed; Bulwinckle bunted, safe on first, filling the bases; Dillon walked, forcing the first run of the game; Biel fanned; White hit to center, scoring Collins, but Bulwinckle was thrown out at

BETTER THAN SPANKING.

"Spanking does not cure children of bed-wetting. There is a constitutional cause for this trouble. Mrs. M. Sammers, Box W, South Bend, Ind., will send free to any mother her successful home treatment, with full instructions. Send no money, but write her today if your children trouble you in this way. Don't blame the child, the chances are it can't help it. This treatment also cures adults and aged people troubled with urine difficulties by day or night."

On August 1 the United States had a net public debt of a little more than \$1,000,000,000, and a combined public and private wealth estimated at not less than \$120,000,000,000. In billions we trust.

If Collector Loeb's millinery parlor meets with the same success as his outfitting establishment of a few weeks since, one phase of the country's revenue problem may be considered solved.

When one considers the moral corruption that prevails among the idle rich, and which is constantly being disclosed in our divorce and other courts, one is quite ready to believe that virtue and honor are more often found in the humble dwelling of the poor than in the mansion of the rich.

The people honestly send men to Congress and State legislatures to represent them honestly. But by the way some of them act and the numerous "jokers" and other tricky things that find their way in bills presented and passed it would seem as if some politicians have left the sly and artful "heathen Chinese" far in the rear.

An American girl is about to marry a Portuguese nobleman and the "dot," as the French call it, will be \$1,000,000. In other words she, or her parents for her, will pay the price for a title. It would be dear under any circumstances, but with the present disturbed condition in Spain and Portugal it looks like an exceptionally bad bargain for the girl.

Chicago, like many other large cities, is notorious for municipal corruption, but the investigation now going on promises to reveal a condition of graft, immorality and malfeasance of office even worse than was suspected. Not until reputable men are placed in office and municipal affairs are conducted on true business principles will the Augean stable of corruption be cleaned and kept cleaned.

Of late there has been a large number of automobile accidents due to reckless driving. In many cases the offenders are young men with more money than brains and who have the mistaken idea that other people have no rights for them to respect. Frequently the offenders are the victims of their own foolishness, and when that is the case it is exceedingly difficult to feel any sympathy with them.

PUBLIC EXPENDITURES.

The appalling rapidity with which public expenditures have been increasing in recent years is the theme of grave discussion at present in the three leading countries in Europe—Great Britain, Germany and France, as well as the United States. The American tax-payer who may feel a trifle disgruntled by the modest levy of one per cent upon corporation earnings in the new tariff bill will find food for thought in pursuing the proposals which are pending in European parliaments for increasing taxes to find necessary revenue, says The Wall Street Journal.

In Great Britain expenditures have advanced from £86,000,000 in 1890 to nearly £150,000,000 for the current year. It is not surprising that the new death duties tax estates of over \$5,000,000 at the rate of 16 per cent and tax incomes of \$200,000 and upward more than eight per cent. Such proposals, with the proposed levy on the unearned increment of increase in land values, have inevitably aroused a storm in English financial circles, but the sardonic reply of the Government is in effect that the money must be found to provide for new Dreadnaughts and that it is the rich who must find it.

Germany's consolidated debt stands at over one thousand millions of dollars, on which the interest charge is about \$36,000,000 annually. The annual budget of the empire, which was about \$180,000,000 in 1888, was \$340,000,000 in 1898 and \$600,000,000 in 1908. In 1908 the expenditures for the army and navy and kindred purposes had risen to \$240,000,000, or more than the entire expenditure for all purposes twenty years before. It is not surprising that deficit of \$45,000,000 confronts the government and that the Chancellor of the Exchequer is planning to impose new taxes which will yield \$120,000,000 annually. Among the taxes already proposed is one upon the transfer of securities, which imposes a cumulative tax for the period during which the security has not changed ownership. The taxes on the capital and the transfer of securities impose such fetters upon the German market that they reduce in a large degree the income derived from fixed investments.

In France the economist, Leroy-Beaulieu, finds additional cause for anxiety in the fact that increased expenditure is not sustained by increasing population, as in the case of Great Britain and Germany. He points out that between 1897 and 1903 the population of the United Kingdom increased from about 40,000,000 to 45,000,000, and Germany advanced from 54,000,000 inhabitants to 64,000,000, while unhappy France in the same lapse of time increased her population by only 600,000. The French budget of 1897 called for about \$660,000,000; that of 1910 calls for \$805,000,000. France for the first time is seriously threatened with the income tax, which has not heretofore been imposed as such, although heavy burdens have been laid upon wealth in various forms and its transfer from hand to hand. The reason for these difficulties in France the French writer finds in the reckless waste in the civil service rather than in the army and marine, which absorbed only 283,000,000 francs of the increased outgo of 737,500,000 francs. He declares that if matters continue to go on as in the past the country will be overwhelmed and that in the effort to throw the burden upon the comfortable classes they will be crushed and the entire country will suffer the reflex action of their disaster.

In the United States Secretary Cortelyou sounded the warning in his last annual report of an increase of disbursements from \$259,000,000 in 1888 to \$659,000,000 in 1908. Fortunately we are advancing in wealth and population even more rapidly perhaps than Great Britain and Germany and it seems to be not yet too late to establish a system of rigid inspection of expenditures and their limitations to necessary objects. No more important work perhaps has been assumed by the new administration than the effort to bring the budget into harmony, to weed out duplications of service and to raise the standard of efficiency in public departments.

Utilization of waste in industry has become so essential in a well-managed enterprise that the best brains of the establishment are now occupied in the alchemy of turning what is worthless into market value.

FOREST SCHOOL CONFERENCE.

The heads of all universities, colleges and schools in which technical forestry is taught have been invited by Gifford Pinchot, United States Forester, to attend or send a representative to the Conference on Education in Forestry which will be held in Washington in December. In his letter of invitation the Forester says:

"I believe that a conference of representatives of all forest schools and universities and colleges in which forestry is taught might be made of great value to the general progress of forestry in the United States, as well as to the institutions which teach forestry, and to the Forest Service, which employs so many of their graduates, and which is vitally interested in the best training of foresters. Such a conference might well consider the objects and methods of forest instruction, the organization and standards of educational work in the field of forestry, the co-ordination of the work of different institutions, and the needs of the Forest Service and other employers of forest graduates.

"I hope you will find it possible to be present or to send a delegate to a conference of this kind, which, with the concurrence of the institutions concerned, will be held in Washington December 30 and 31, 1909."

From all over the country the plan has met with enthusiastic support, letters of acceptance having been received from nearly every institution to which the invitation has been sent.

THAW'S DESTINY NOW IN HANDS OF JUSTICE MILLS

Mrs. Thaw, the Last Witness to Testify, Denounced District Attorney Jerome.

WHITE PLAINS, N. Y., Aug. 7.—Harry K. Thaw's latest struggle to gain his freedom will end today. The submission of testimony in his hearing before Justice Isaac M. Mills closed yesterday afternoon and all that remains is the final arguments of the attorneys. Justice Mills will file his decision with the county clerk here on the morning of Thursday, August 12th.

Several possibilities confront Thaw. The court may grant his plea and make him absolutely free. It may decide that he has not established his sanity and refuse to interfere, in which case the State authorities will probably send him back to Matteawan hospital for the criminal, but Justice Mills has further directionary powers. He may feel that the young man's mental condition is still in doubt and for that reason delay a final order, meanwhile paroling him in the custody of some officer or possibly on his own recognizance in the care of his family. Or, he may declare that Thaw is insane, but moved by his mother's complaint regarding his surroundings at Matteawan, send him to some other State hospital not peopled by criminals.

Mrs. Thaw Denounces Jerome.

Thaw left the court room yesterday afternoon with jaunty steps. The strain of the past four weeks, during which he has submitted personally to fourteen hours of cross-examination, was not apparent either in his face or bearing. At no time during the proceedings has he expressed anything but satisfaction with the results and confidence in the success of his cause. The evidence presented in behalf of

Thaw closed with a dramatic outburst by his mother, Mrs. Mary Copley Thaw, the final witness. Her last words were a denunciation of District Attorney Jerome. Earlier in the day she had read a list of names distinguished in New York society. They were guests, she said, at a dinner she gave in New York which Harry attended before his marriage. In concluding her testimony, she referred to this list of names.

"I brought in the names of those who attended the dinner to my son," she said, "because of the statement of Mr. Jerome regarding the company Harry was accustomed to keep. I do not have any special enmity toward Mr. Jerome, but he certainly has not behaved in this matter in a gentlemanly nor in a Christian way. He always talked about Harry being a frequenter of the 'Tenderloin' when he knew, as well as anyone, my boy never went to the 'Tenderloin' until he met a certain person who roped him down."

"That," said Attorney Morschauer, "ends our case."

The principal new witness yesterday was Roger O'Mara, formerly chief of police in Pittsburg, who testified in corroboration of the stories about Stanford White.

The greater part of the day was devoted to a re-examination of Thaw's alienists. They stuck to the assertion that whatever Thaw's mental condition might have been when he shot Stanford White, he was now sane.

Jerome will sum up first this morning, and Mr. Morschauer will follow.

Both say their speeches will be brief, and the case may be in Justice Mills' hands by noon.

SANITARIUM NOTES

Miss Mattie Covington, who has been a nurse at the Sanitarium for several months past and has been faithful in the discharge of her duties during that time, has resigned and returned to her home at Jacksonville. Miss Covington is not very strong and she found the work rather too arduous.

Miss Gertrude Boggs, a trained nurse from South Carolina, has arrived and accepted a permanent position with the Sanitarium.

O. O. Thomas of Dutton came to the Sanitarium last week for the purpose of having an operation performed. He was operated on Tuesday and is convalescing nicely. Mr. Thomas' father was a county commissioner for a number of years and is well known by a number of our people.

S. H. Lovell of Rochelle, a valued employee of the W. B. Phifer Company, has been quite ill with fever since his admission to the Sanitarium last week. Mr. Lovell was referred by Dr. Floyd of Hawthorn.

C. R. Copeland, who has had an attack of continued fever, is now somewhat better.

Mrs. W. H. Welch of Mayo has been improving rapidly since she was operated on several days ago. She arrived in a very serious condition. The operation was done by Dr. Hodges a week ago and resulted in the successful removal of twenty-one gall-stones.

Mrs. W. H. Edwards is under treatment by Dr. DePass for chronic appendicitis. It is hoped the treatment will be successful and that Mrs. Edwards will be entirely restored to health. Mr. and Mrs. Edwards are recent arrivals in the city. Mr. Edwards having engaged in the furniture business in the Hill block.

Dr. O. F. Green of Mayo was a visitor several days ago, having accompanied Mrs. Welch, who was too feeble to make the trip to the Sanitarium alone, and remained over until after Mrs. Welch was operated upon.

Dr. I. P. Philpot of Bell was a visitor one day recently, having accompanied a patient to the Sanitarium.

If You Are Fat and Hot Read This Article

There is no necessity of fat people suffering as they do. Most fat people are so good-natured they do not care how they look or how they get along during the hot weather. As a matter of fact there is a natural fat reducer that in the past several years has been demonstrating that it will reduce fat and not tear down the body or leave big, flabby rolls of skin and wrinkles. This method is the famous Marmola prescription, which is now prepared in tablet form to meet the demands of fat people in the summer and to enable them at all times to take their fat reducer after each meal. One of these little tablets taken after a meal turns that meal into good food for the blood and stops all fat-producing elements from going into the system. Marmola Tablets have an army of men and women who testify to its success, and you would tire reading what they say of its triumphs. Marmola tablets not only stop producing fat in the body but they reduce flesh at the rate of from 12 to 15 ounces a day. They are harmless and do nothing but assist nature to give to the body the nourishment it requires. They are sold at all drug stores, price 75 cents, or you may write The Marmola Company, Dept. 284, Detroit, Mich.

Fine and Jail Sentences in the Locker Club Cases

BIRMINGHAM, Ala., Aug. 7.—Judge Feagin of the police court plunged into the locker club cases with vigor yesterday and did not conclude until eighteen men had been brought before him. Thirty-five cases are still pending. In each case a fine of \$100 and thirty days in jail was the penalty imposed for violation of the prohibition laws. All of the defendants made an appeal bond except three, who were placed in the city jail.

It was testified in one of the cases, that of J. R. Waggoner, that the Nash-

ville detective who worked up the cases had served a term in prison at Leavenworth, Kan., for deserting his wife.

Birmingham Thursday night was one of the driest cities in the United States. Every locker club and soft drink stand in the city is dark and every gambling room is as silent as the tomb. Even the ultra social clubs had their lockers removed yesterday.

Isn't there something which only a that of J. R. Waggoner, that the Nash-

Attempted Suicide While Confined in the City Jail

OCALA, Aug. 7.—Tom Burrowes, a young white man who was arrested several days ago as a suspicious character, was found Thursday morning lying on the floor of his cell in the city jail with an empty vial and a note giving funeral directions, nearby. Dr. Van Hood was quickly summoned and after a close examination

said that the man would recover, and at his suggestion Burrowes was sent to the county hospital.

How the prisoner obtained the vial, the contents of which are not known, remains a mystery. It was thought by the authorities that the attempt at suicide was only a ruse to avoid work, but the man was in a very weak condition in the morning.

People with chronic bronchitis, asthma and lung trouble, will find great relief and comfort in Foley's Honey and Tar, and can avoid suffering by commencing to take it at once. J. W. McCollum & Co.

COLORED MAN DROPS DEAD ON STREETS

WAS CAUSED BY HEMORRHAGE OF LUNGS, DOCTOR STATES.

Friends Took Remains to His Home West of Gainesville for Interment.

Great excitement was created on West Union street Saturday afternoon about 5 o'clock when John Whittaker, one of the well-to-do colored farmers residing about nine miles west of Gainesville, suddenly dropped to the pavement and died before aid could be given him.

The man came across West Union street, near Seagle's store, and when just opposite the place, fell. He was hurriedly picked up by parties standing around and Dr. R. B. Ayer, who was in his place, rushed to Whittaker's assistance, but before he could be removed to the offices, he expired.

Justice Carlisle viewed the remains, together with Sheriff Ramsey, and after hearing the statement of the physician, deemed that an inquest was unnecessary, as the doctor was fully satisfied that he died from hemorrhage of the lungs, by the bursting of a blood vessel.

Dr. Ayer stated that it was only about fifteen minutes previous that Whittaker was in his place, complaining of a cough, and having previously bought a patent medicine which helped him, purchased another of the same kind, and was at that time complaining of his chest, a cold having settled there.

The remains were taken in charge by colored friends of the man and carried to his home west of Gainesville, where the funeral will probably be held today.

OWES HER LIFE TO

Lydia E. Pinkham's Vegetable Compound

Vienna, W. Va.—"I feel that I owe the last ten years of my life to Lydia E. Pinkham's Vegetable Compound. Eleven years ago I was a walking shadow. I had been under the doctor's care but got no relief. My husband persuaded me to try Lydia E. Pinkham's Vegetable Compound and it worked like a charm. It relieved all my pains and misery. I advise all suffering women to take Lydia E. Pinkham's Vegetable Compound."—MRS. EMMA WHEATON, Vienna, W. Va.

Lydia E. Pinkham's Vegetable Compound, made from native roots and herbs, contains no narcotics or harmful drugs, and to-day holds the record for the largest number of actual cures of female diseases of any similar medicine in the country, and thousands of voluntary testimonials are on file in the Pinkham laboratory at Lynn, Mass., from women who have been cured from almost every form of female complaints, inflammation, ulceration, displacements, fibroid tumors, irregularities, periodic pains, backache, indigestion and nervous prostration. Every such suffering woman owes it to herself to give Lydia E. Pinkham's Vegetable Compound a trial.

If you would like special advice about your case write a confidential letter to Mrs. Pinkham, at Lynn, Mass. Her advice is free, and always helpful.

ABOUT ADVERTISING--NO. 8

The Cellar Hole and the Sewer Hole

By Herbert Kaufman.

A coal cart stopped before an office building in Washington and the driver dismounted, removed the cover from a manhole, ran out his chute, and proceeded to empty the load. An old negro strolled over and stood watching him. Suddenly the black man glanced down and immediately burst into a fit of uncontrollable laughter, which continued for several minutes. The cart driver looked at him in amusement. "Say, Uncle," he asked, "do you always laugh when you see coal going into a cellar?" The negro sputtered around for a few moments and then holding his hands to his aching sides managed to say, "No, sah, but I jest busts when I sees it goin' down a sewer."

The advertiser who displays lack of judgment in selecting the newspapers which carry his copy often confuses the sewer and the cellar.

All the money that is put into newspapers isn't taken out again by any means. The fact that all papers possess a certain physical likeness doesn't by any means signify a similarity in character, and it's character in a newspaper that brings returns. The editor who conducts a journalistic sewer finds a different class of readers than the publisher who respects himself enough to respect his readers.

What goes into a newspaper largely determines the class of homes into which the newspaper goes. An irresponsible, scandal-mongering, muck-raking sheet is logically not supported by the buying classes of people. It may be perused by thousands of readers, but such readers are seldom purchasers of advertised goods.

It's the clean-cut, steady, normal-minded citizens who form the bone and sinew and muscle of the community. It's the sane, self-respecting, dependable newspaper that enters their homes and it's the home sale that indicates the strength of an advertising medium.

No clean-minded father of a family wishes to have his wife and children brought in contact with the most maudlin and banal phases of life. He defends them from the sensational editor and the unpleasant advertiser. He subscribes to a newspaper which he does not fear to leave about the house.

Therefore, the respectable newspaper can always be counted upon to produce more sales than one which may even own a larger circulation but whose distribution is in ten editions among unprofitable citizens.

You can no more expect to sell goods to people who haven't money than you can hope to pluck oysters from bushes.

It isn't the number of readers reached but the number of readers whose purses can be reached that constitutes the value of circulation. It's one thing to arouse their attention, but it's a far different thing to get their money. The mind may be willing, but the pocketbook is weak.

If you had the choice of a thousand acres of desert land or a hundred acres of oasis, you'd select the fertile spot, realizing that the larger tract had less value because it would be less productive.

Just so the advertiser who really understands how he is spending his money does not measure by bulk alone. He counts productivity first. He takes care that he is not putting his money into a sewer.

BEAVERS' HOMES.

How the Ingenious Little Builders Construct Their Houses.

When the beavers' dams are completed, the animals separate into small companies to build cabins or houses for themselves. These are constructed upon piles along the borders of the pond. They are of an oval shape, resembling a beehive, and they vary from five feet to ten feet in diameter, according to the number of families they are to accommodate.

These dwellings are never less than two stories high, generally three, and sometimes they contain four apartments. The walls of these are from two feet to three feet thick, formed of the same materials as the dams. On the inside they are made smooth, but left rough without, being rendered impenetrable to rain.

The lower story is about two feet high, the second is formed by a floor of sticks covered with mud, and the upper part terminates with an arched roof. Through each floor there is a passage, and the uppermost floor is always above the level of the water. Each of these huts has two doors, one on the land side to admit of their going out and seeking provisions that way, another under the water and below where it freezes to preserve their communication with the pond.—English Magazine.

Cured Hay Fever and Summer Cold.

A. S. Nusbaum, Batesville, Indiana, writes: "Last year I suffered for three months with a summer cold so distressing that it interfered with my business. I had many of the symptoms of hay fever, and a doctor's prescription did not reach my case, and I took several medicines which seemed only to aggravate it. Fortunately I insisted upon having Foley's Honey and Tar. It quickly cured me. My wife has since used Foley's Honey and Tar with the same success." J. W. McCollum & Co.

this to prevent the forming of a pouch. The removal safely accomplished, the intestine is replaced, the edges of the peritoneum are carefully approximated and the muscular walls, fatty tissue and skin are brought together by subcutaneous and cutaneous sutures.

In the majority of cases, no complications ensuing, the patient is ready for discharge in two weeks.—James M. Smyth, M. D., in New York World.

No matter how long you have suffered, Foley's Kidney Remedy will help you. Mrs. S. L. Bowen, of Wayne, W. Va., writes: "I was a sufferer from kidney disease, so that at times I could not get out of bed, and when I did I could not stand straight. I took Foley's Kidney Remedy. One dollar bottle and part of the second cured me entirely." It will cure you. J. W. McCollum & Co.

HAPPY WOMEN

Plenty of Them in Gainesville, and
Good Reason for It.

Wouldn't any woman be happy. After years of backache suffering. Days of misery, nights of unrest. The distress of urinary troubles. She finds relief and cure?
No reason why any Gainesville reader

Should suffer in the face of evidence like this:

Mrs. John Smith, 307 E. Magnolia street, Gainesville, Fla., says: "I suffered from a weak back and severe pains in my sides for a long time. I could not stoop without experiencing sharp twinges through my body and if I did so it was difficult to regain an erect position. I was also subject to headaches and at times was very nervous. When I saw Doan's Kidney Pills so highly recommended for these troubles, I procured a box and began their use. In a short time I felt much better. The pains lost their severeness and I gained in strength. I consider Doan's Kidney Pills an excellent remedy and am pleased to recommend them."

For sale by all dealers. Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other.

Chicken Nomenclature.

A country minister in the course of his dining out on the circuit came to a house where a roast chicken was served for dinner. He had previously encountered a series of rib corned beef dinners, and the chicken looked good to him.

"Well," he facetiously remarked, "here's where that chicken enters the ministry."

"Hope it does better there than in lay work," rejoined the small boy of the family.—Boston Record.

What Is Best for Indigestion?

Mr. A. Robinson of Drumquin, Ontario, has been troubled for years with indigestion, and recommends Chamberlain's Stomach and Liver Tablets as "the best medicine I ever used." If troubled with indigestion of constipation give them a trial. They are certain to prove beneficial. They are easy to take and pleasant in effect. Price, 25 cents. Samples free at all drug stores.

Lightning Change.

The three-year-old boy on the sidewalk in the street car turned suddenly to look out of the window, thereby wiping his muddy shoes on the light colored trousers of the middle aged man sitting next to him.

"Madam," exploded the man, "is this your nasty little?"

Here the boy's pretty mother turned her head and looked at him.

"—angel boy?" he finished with a gasp.—Chicago Tribune.

Granulated Sore Eyes Cured.

"For twenty years I suffered from a bad case of granulated sore eyes," says Martin Boyd of Henrietta, Ky. "In February, 1903, a gentleman asked me to try Chamberlain's Salve. I bought one box and used about two-thirds of it and my eyes have not given me any trouble since." This salve is for sale by all druggists.

Tibetan Test of Character.

The Tibetans have some strange tests for ascertaining the character of a man, said Sven Hedin. One is by means of a hole in a block of granite, through which the individual has to crawl. If he is an honest man he will, according to the theory of the Tibetans, creep through, but if a scoundrel he will stop in the middle.

Dysentery is a dangerous disease but can be cured. Chamberlain's Colic, Cholera and Diarrhoea Remedy has been successfully used in nine epidemics of dysentery. It has never been known to fail. It is equally valuable for children and adults, and when reduced with water and sweetened, it is pleasant to take. Sold by all druggists.

Disgusted.

Loafer the First—I thought this yere unemployed fund was for charity. Loafer the Second—So it is, ain't it? Loafer the First—It ain't. It means work.—London Sketch.

When the digestion is all right, the action of the bowels regular, there is a natural craving and relish for food. When this is lacking you may know that you need a dose of Chamberlain's Stomach and Liver Tablets. They strengthen the digestive organs, improve the appetite and regulate the bowels. Sold by all druggists.

TWO PIANOS AND A DIAMOND RING

Total Cash Value, \$1,000.00

To Be Given Away by the Merchants and The Sun to Citizens of Alachua County!

Each Section Gets Prizes!

Contest to Close August 18, 1909

Realizing that all should share alike in the distribution, leading business houses have joined in the combination to give away Two Handsome Pianos and One Diamond Ring to residents of Alachua county in three different sections. These progressive firms will give One Vote for each penny spent with them.

In the event of a tie for any prize offered, a prize similar in all respects there-to will be given each of those tying.

THE A. R. HARPER PIANO CO. of Jacksonville, from whom the pianos for this contest were purchased, have agreed to offer extra prizes as follows: To the first five candidates in each district, excepting the winners of the capital prizes in the said districts, one certificate each for \$100.00 which will be redeemable in cash as a payment on any piano handled by them—the Everett, Harvard, Dayton or John Church Pianos. In addition to this they will give a certificate good for \$25 to all other contestants in the race, and will make special arrangements with anyone to take care of their paper on all purchases of instruments at the cash price.

The Gainesville Section Will embrace the city and suburbs and be confined to a radius of four miles in each direction. The winner in this district will be awarded a HANDSOME DIAMOND RING.

Eastern and Southern Section Will comprise territory from Fairbanks all points east and from Rochelle all points south—Waldo, Hawthorn, Island Grove, Campville, Micanopy, Lake View, Tacoma and all points along line of T. & J. Ry. ONE PIANO.

Western and Northern Section Will comprise all stations from Hague to High Springs, Trenton, Wannee, Wilcox, Bell, Newberry, Jonesville, Archer and all settlements covered by this area. ONE PIANO.
